## *Wonders of Nature*

5th April - 5th October 2025

New Art Museum Singapore is proud to present *Wonders of Nature*, the museum's first immersive experience for children of all ages running from 5th April to 5th October 2025, designed to highlight the importance of natural environments through fun interactions with art. Featuring a dynamic range of artworks, from AI generated projections of giant ancient fishes to alluring animal sculptures, digital gameplay, art playground and beautiful paintings, *Wonders of Nature* invites both children and adults to embark on an exciting journey, following the magical dots unto five versatile paths—*Canyon of Cuddles*, *Animal Kingdom*, *Ancient Aquarium*, *Garden of Senses*, and the *Imagination Room*. By showcasing how art and nature intertwine, this exhibition offers a meaningful opportunity for visitors to appreciate the environment and connect with art. Whether through awe-inspiring visuals or interactive experiences, *Wonders of Nature* creates a space where the magic of biodiversity comes alive for all.

## *Animal Kingdom*

The *Animal Kingdom* showcases the extraordinary creations of renowned Japanese artists: Osamu Watanabe, Yuji Kanamaru, and Go Yayanagi. This enchanting collection invites viewers to explore the diverse and imaginative interpretations of the animal world, where each artist brings their unique perspective and style to life. Watanabe's intricate, confectionary-inspired creations, Kanamaru's nostalgic and exotic pieces, and Yayanagi's vibrant, organic artworks merge to create a rich environment where art and nature beautifully intertwine. Together, these works provide a captivating exploration of the animal world through the eyes of these established artists.

## *Ancient Aquarium*

The *Ancient Aquarium* provides an immersive projective experience by Masato Inagaki and Go Ogawa, inviting visitors into a captivating aquatic world via digital art. Featuring Inagaki's large-scale projections of marine life and Ogawa's unique and innovative approach using light to imitate fluidity, this room creates a full scale experience for visitors where vibrant colours and fluid movements of the sea are enhanced by ambient soundscapes. This path encourages visitor contemplation on the connection between humanity and the natural world, and attempts to underscore the fragility of marine habitats and the importance of oceanic life conservation and preservation.

## *Garden of Senses*

The *Garden of Senses*, is an interactive experience that combines visual, auditory, and tactile elements. Interactive features allow visitors to experience a digital gameplay created by Jesse Franklin. *Garden of Senses* invites visitors into a surreal botanic world and allows them to explore the landscapes featuring beautiful nature inspired globules specially created for the exhibition. The artist combines natural imagery with interactive design to create a playful and immersive environment.

## *Imagination Room*

The *Imagination Room* is a uniquely immersive space designed to inspire creativity and self-expression. Visitors will be enveloped by the rich, deep black walls, creating a striking backdrop that invites imagination to flourish. It is designed to foster a sense of community and shared creativity. This is not just a room; it's a canvas awaiting your personal touch. Whether you choose to sketch intricate designs, jot down inspiring quotes, or collaborate with fellow visitors, the possibilities are endless. Embrace the opportunity to express yourself and witness the beauty of collective imagination unfold before your eyes.
